HURRICANE™ TAPE

ALL PURPOSE TAPE

CONSTRUCTION · MARINE · AUTOMOTIVE · HOME

Hurricane Tape is a heavy duty general purpose utility tape that can be used as an alternative to duct tape. It is much more durable, weather resistant, and with its high tensile strength it does not stretch and tear like duct tape - making it a better choice for outdoor and heavy duty applications. Its backing is water-resistant woven polyethylene plastic. With a UV inhibitor added, Hurricane Tape has been proven to stay intact for up to 5 years of continuous weather exposure. The adhesive will not leave a residue if removed within 7-14 days, but will get stickier over time if left in place.

FEATURES & BENEFITS

- UV resistant
- Superior adhesive power
- Stretch and tear resistant
- Durable weather resistance
