Intertape Polymer Group® offers a complete line of products specifically engineered to meet the most stringent requirements of the HVAC industry. From our dead soft aluminum foil tapes and metallized film tapes to our extensive industrial tapes and films product offering, IPG® has your solution!

**FEATURES & BENEFITS**

- Products engineered for a wide range of applications and environments
- UL-listed products to meet building and construction codes
- Water, smoke and mold-resistant products
- Moisture barrier products for use on foil jacketing insulation
- IPG HVAC products can help increase efficiency and meet sustainability goals by minimizing air distribution loss

- Acrylic-based BOPP designed for seaming, closing and repairing flexible ducts
- Superior flexibility allows conformability to a variety of shapes
- Excellent adhesion in a wide range of temperatures, up to 210°F
- UL markings printed on the tape for easy identification
- Hand tears, no dispenser needed
- UV resistant
- Mold resistant

- Dead soft aluminum foil tape for seaming and sealing fiberglass duct board and duct wrap
- High tack rubber based adhesive with shiny aluminum backing for excellent reflective properties
- Recommended minimum application temperature 40°F (4°C)
- Tested in accordance with UL-723 (ASTM E-84)
**FSK JACKETING TAPE**

- Engineered to seam/seal FSK duct board and insulation to enhance appearance and maintain vapor barrier integrity
- Aggressive acrylic pressure-sensitive adhesive provides long-lasting adhesion to clean/dry surfaces
- Full bond within 24 hours

• Metalized PE film on high tensile cloth with an aggressive pressure-sensitive natural rubber adhesive
• Designed for applications where a high quality grade of cloth tape is required and the appearance of metalized backing is preferred

• PE coated cloth tape with an aggressive system designed to provide exceptional shear strength for demanding applications such as HVAC, abatement, weatherproofing, extermination, flex duct connections and all general maintenance needs

• PE coated cloth film with an aggressive adhesive
• Wide temperature range

• Recommended for use where high adhesion and conformability are required
• Meets HUD and BOCA Codes and LA County codes; Tested in accordance with UL 723 (ASTM E-84)

• High tensile and tear strength
• Maximum performance for sealing heating and air ventilation systems

• Professional quality, ultra-tough black duct tape for temporary patching of utility holes, taping of ductwork, and a variety of heavy-duty demanding applications requiring high strength

• All-weather, easy unwind, high adhesion; Tested in accordance with UL 723 (ASTM E-84)
**AC50 SPRAY ADHESIVE**

- Designed to assist bonding to several surfaces, which include wood, concrete and sheet metal
- Fast tack pressure sensitive adhesive; Contains no methyl chloride or CFCs
- 41 PSI shear strength
- Not intended for use in California

- Hot melt BOPP carton sealing tape for medium to heavy weight usage, manual or automatic box sealing, package repair, bundling, and packages exposed to normal shipping hazards and stress.
Intertape Polymer Group® Inc. (IPG®) is a recognized leader in the development, manufacture and sale of a variety of paper- and film-based pressure sensitive and water-activated tapes, polyethylene and specialized polyolefin films, protective packaging, woven coated fabrics and complementary packaging systems for industrial and retail use. Headquartered in Montreal, Quebec and Sarasota, Florida, the Company employs approximately 3,600 employees with operations in 30 locations, including 21 manufacturing facilities in North America, two in Asia and one in Europe.
